Federalism is the mixed or compound mode of government, combining a general government (the central or 'federal' government) with regional governments (provincial, state, cantonal, territorial or other sub-unit governments) in a single political system. Its distinctive feature, exemplified in the founding example of modern federalism by the United States under the Constitution of 1787, is a ...

Political Science Chapter 3 Flashcards | Quizlet

Federalism is the theory or advocacy of federal principles for dividing powers between member units and common institutions. Unlike in a unitary state, sovereignty in federal political orders is non-centralized, often constitutionally, between at least two levels so that units at each level have final authority and can be self governing in some issue area.

CHAP. II. Of the State of Nature. Sec. 4. TO understand political power right, and derive it from its original, we must consider, what state all men are naturally in, and that is, a state of perfect freedom to order their actions, and dispose of their possessions and persons, as they think fit, within the bounds of the law of nature, without asking leave, or depending upon the will of any ...

During the Obama administration, prospects for federal regulation of cybersecurity and consumer privacy were dim. The administration recognized the need for action, but it struggled to advance even half-measures 1 and repeatedly got bogged down with ineffective working groups. 2 Officials were torn between acknowledging the pervasive market failures associated with cybersecurity and consumer ...

Of course, it was not only journalists who raised questions about American society. One of the most popular novels of the nineteenth century, Edward Bellamy's 1888 *Looking Backward*, was a national sensation. In it, a man falls asleep in Boston in 1887 and awakens in 2000 to find society radically altered.
