Angstrom Sun Technologies Inc - Spectroscopic Reflectometer

Computer - History of computing: A computer might be described with deceptive simplicity as "an apparatus that performs routine calculations automatically." Such a definition would owe its deceptiveness to a naive and narrow view of calculation as a strictly mathematical process. In fact, calculation underlies many activities that are not normally thought of as mathematical.

The SOFTEYE24 software is a modular system that can be accessed and configured through a web browser. It offers multiple different functions based on character or barcode detection, including License Plate Recognition (LPR), Black & White list detection, Presence, statistics & reports, barcode detection and more.

ACC System Integrations | Avigilon

Law is a system of rules that are created and enforced through social or governmental institutions to regulate behavior. It has been defined both as "the Science of Justice" and "the Art of Justice". Law is a system that regulates and ensures that individuals or a community adhere to the will of the state.
