Gravity is such a pesky thing. It prevents us from doing all sorts of wonderful things. Such as floating through the air like a balloon, traveling into orbit without paying an ugly cost in delta V, and being morbidly obese but still light on your feet like Baron Vladimir Harkonnen. By the same token, it would also be incredibly useful to be able to create gravity on command.

I wasn't going to put this section in, but I have to. I wanted to keep the website as free from handwavium as possible. However, while Faster-Than-Light travel is about as handwavium as you can get, it is unfortunately the sine qua non of interstellar space opera. Space opera with no StarDrive is like chocolate cake without the chocolate.

The diabolical mastermind's motto is that you have to spend money to make money. As such, he may spend countless millions—or billions—of dollars building a super orbital Death Ray operated from a secret volcano base, only to then hold the world's governments to ransom for even more money. Since money is no object, the best way to ask the world for this ransom is to take over every TV ...
