Having piloted whole-class reading lessons in Year Four, our headteacher was keen to roll it out across the school. Currently, all of our Key Stage Two are now teaching reading like this with two or three lessons each week, each lasting an hour.

Mrs P Teach: Whole Class Guided Reading: How does it work?

Reciprocal teaching refers to an instructional activity in which students become the teacher in small group reading sessions. Teachers model, then help students learn to guide group discussions using four strategies: summarizing, question generating, clarifying, and predicting. Once students have learned the strategies, they take turns assuming the role of teacher in leading a

One Minute Papers. Ask students to comment on the following questions. Give them one minute and time them. This activity focuses them on the content and can also provide feedback to you as a teacher.

Collaborative Learning Structures and Techniques

I read about this game on the internet some years back. It is a dice game that can help teach basic addition or multiplication facts. My class just played it yesterday and were begging to play another round at the end of each game.

Guided Math: SNAKE - A Whole Class Dice Game

Many of the anti-women rules that Taliban practiced were first of all the rules formulated and practiced by Rabbani-Massoud government after they came to power in 1992, but no one talk about them and it is painful that today even they are called the champaions of women's rights!!

some of the restrictions imposed by Taliban in Afghanistan

Meditation is a practice where an individual uses a technique – such as mindfulness, or focusing their mind on a particular object, thought or activity – to train attention and awareness, and achieve a mentally clear and emotionally calm and stable state.: 228–29: 180: 415: 107 Some of the earliest written records of meditation (), come from the Hindu traditions of Vedantism around 1500 BCE.

Constructivist teaching is based on constructivist learning theory. Constructivist teaching is based on the belief that learning occurs as learners are actively involved in a process of meaning and knowledge construction as opposed to passively receiving information. Learners are the makers of meaning and knowledge.

Making inferences is a skill with which students often need much practice. If you've looked for resources in the same places that I have, you probably haven't been too happy with what you found. I believe that the inference worksheets that I've created are of a higher quality than the other available resources and, as usual, I'm giving them away for free.
