4.1 Introduction to the DSDM Principles The eight principles of DSDM support DSDM's philosophy that "best business value emerges when projects are aligned to clear business goals, deliver frequently and involve the collaboration of motivated and empowered people".

Principles | Agile Business Consortium

In cryptography, a certificate authority or certification authority (CA) is an entity that issues digital certificates. A digital certificate certifies the ownership of a public key by the named subject of the certificate. This allows others (relying parties) to rely upon signatures or on assertions made about the private key that corresponds to the certified public key.
