The facts and figures contained in the pages of the 2018 State of the World's Fungi report and this website will probably come as a total revelation to many people. The first of its kind outlining the state of the world's fungi, the report and associated website highlight just how important fungi are to all life on Earth.

State of the World's Fungi 2018

Before you decide to take a valerian supplement for insomnia, consider the following: Medication may not be the answer. Start with lifestyle habits that influence sleep: avoid caffeine late in the day, maintain a regular sleep schedule, get regular exercise, and wind down an hour or two before bed.

Valerian: A safe and effective herbal sleep aid? - Mayo Clinic

Some fruit juices and fruits can interact with numerous drugs, in many cases causing adverse effects. The effect was first discovered accidentally, when a test of drug interactions with alcohol used grapefruit juice to hide the taste of the ethanol. It is still best-studied with grapefruit and grapefruit juice, but similar effects have been observed with some (not all) other citrus fruits.

Grapefruit-drug interactions - Wikipedia

A. mellifera, the most common domesticated species, was the third insect to have its genome mapped. It seems to have originated in eastern tropical Africa and spread from there to Europe and eastwards into Asia to the Tien Shan range. It is variously called the European, western, or common honey bee in different parts of the world.

Honey bee - Wikipedia

Death is inevitable for individuals and also for species. With help from the fossil record, paleontologists are piecing together what might make one creature more vulnerable than another.

What makes some species more likely to go extinct?

Interactions between organisms and their environment impact the organism's overall population. The jaguar *Panthera onca* is the largest cat in North America.
