How to create an answer file to automate Windows 10 setup

An answer file for Windows Vista and Windows 7 is an XML-based file that contains settings definitions and values to use during Windows Setup. The easiest way to create an answer file for use with a Windows 7 deployment is to use the Windows System Image Manager (WSIM) which is a part of the Windows Automated Installation Kit (Windows AIK or WAIK).

[SOLVED] Win 7 Answer File - Documentation - Spiceworks

If you install Windows by using an answer file, that answer file is cached to the system. When later configuration passes run, the computer applies settings in that answer file to the system. Because this answer file is cached, when you run the Sysprep command, the system applies settings in the cached answer file.
